§ 5-231. Board of Zoning Appeals established.

A Board of Zoning Appeals is hereby established which shall consist of three (3) members appointed by town council. The term of office of the members shall be three (3) years; provided however, in order to provide for staggered terms initial appointments shall be for the following terms: one (1) member shall serve for one (1) year, one (1) member for two (2) years, and one (1) for three (3) years. Subsequent appointments or re-appointments shall be for a term of three (3) years. Members shall serve until their successors are appointed. Members may be removed for cause by town council upon written charges and after a public hearing. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant.

§ 5-232. Board of Zoning Appeals proceedings.

The board shall elect one of its members chairman, who shall serve for one (1) year, or until his successor is elected. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. The chairman, or in his absence, the acting chairman, may administer oaths and compel the attendance of witnesses. All regular meetings shall be open to the public. The board of adjustment shall appoint a secretary who may be an officer of the town or of the planning commission. The board shall keep minutes of its proceedings and such records shall be filed in the office of the board and shall be a public record.

§ 5-233. Board of Zoning Appeals powers and duties.

- a. The board of zoning appeals has the following powers:
 1. The board shall hear and decide appeals where it is alleged there is error in an order, requirement, decision, or determination made by an administrative official in the enforcement of the zoning ordinance;
 2. The board shall hear and decide appeals for variance from the requirements of the zoning ordinance when strict application of the provisions of the ordinance would result in unnecessary hardship. A variance may be granted in an individual case of unnecessary hardship if the board makes and explains in writing the following findings:
 - (a) there are extraordinary and exceptional conditions pertaining to the particular piece of property;
 - (b) these conditions do not generally apply to other property in the vicinity;

(c) because of these conditions, the application of the ordinance to the particular piece of property would effectively prohibit or unreasonably restrict the utilization of the property; and

(d) the authorization of a variance will not be of substantial detriment to adjacent property or to the public good, and the character of the district will not be harmed by the granting of the variance.

(i) The board may not grant a variance the effect of which would be to allow the establishment of a use not otherwise permitted in a zoning district, to extend physically a nonconforming use of land, or to change the zoning district boundaries shown on the official zoning map. The fact that property may be utilized more profitably, should a variance be granted, may not be considered grounds for a variance.

(ii) In granting a variance, the board may attach to it such conditions regarding the location, character, or other features of the proposed building, structure, or use as the board may consider advisable to protect established property values in the surrounding area, or to promote the public health, safety, or general welfare;

3. The board may permit uses by special exception subject to the terms and conditions for the uses set forth for such uses in this article. The board shall consider the following factors in determining whether a special exception should be granted, in addition to specific criteria in district regulations: (1) traffic impact; (2) vehicle and pedestrian safety; (3) potential impact of noise, lights, fumes, or obstruction of air flow on adjoining property; (4) adverse impact of proposed use on aesthetic character of the area; and (5) orientation and spacing of improvements or structures. The board may prescribe appropriate conditions and safeguards to relieve or reduce adverse impact of a special exception and to protect the character of the area.

b. In exercising the above power, the board of appeals may, in conformity with the provisions of this chapter, reverse or affirm, wholly or in part, or may modify the order, requirements, decision, or determination, and to that end shall have all the powers of the officer from whom the appeal is taken and may issue or direct the issuance of a permit. The board in the execution of the duties specified in this chapter may subpoena witnesses and in case of contempt may certify this fact to the circuit court having jurisdiction.

§ 5-234. Appeal; hearing; notice.

a. An appeal to the board may be taken by any person aggrieved or by any officer, department, board, or bureau of the municipality or county. The appeal must be by filing with the officer from whom the appeal is taken and with the board of zoning appeals notice of appeal specifying the grounds of appeal. The appeal must be taken within thirty days from the date the appealing party has received actual notice of the action from which the appeal is taken. The officer from whom the appeal is taken immediately shall transmit to the board all the papers constituting the record upon which the action appealed from was taken.

b. The board shall fix a reasonable time for the hearing of the appeal or other matter referred to it, and give at least fifteen days' public notice of it in a newspaper of general circulation in the community, as well as due notice to the parties in interest, and decide the same within a reasonable time. At the hearing any party may appear in person or by agent or by attorney.

c. All final decisions and orders of the board must be in writing and be permanently filed in the office of the clerk-treasurer as a public record. All findings of fact and conclusions of law must be separately stated in final decisions or orders of the board that must be delivered to parties of interest by certified mail.

§ 5-235. Stay of proceedings.

An appeal stays all legal proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board, after the notice of appeal has been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life and property. In that case, proceedings may not be stayed otherwise than by a restraining order which may be granted by the board or by a court of record on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

§ 5-236. Appeal to circuit court; mediation.

a. A person who may have a substantial interest in any decision of the board of appeals or an officer or agent of the town may appeal from a decision of the board to the circuit court by filing with the clerk of the court a petition in writing setting forth plainly, fully, and distinctly why the decision is contrary to law. The appeal must be filed within thirty days after the decision of the board is mailed.

b. Within thirty (30) days after receipt of notice of filing a petition, the zoning administrator or secretary of the board, with assistance of the town attorney, shall file with the clerk of court a certified copy of the board proceedings, including a transcript of evidence and findings and conclusions of the board.

c. A property owner whose land is subject to a decision of the board of zoning appeals may appeal either as provided above, or by filing a notice of appeal with the circuit court accompanied by a request for pre-litigation mediation in accordance with S.C. Code § 6-29-825 within thirty days after the decision of the Board is postmarked. The town attorney is designated as the representative of the town in mediation proceedings.

§ 5-237. Amendments.

In amending the text of this chapter or in amending the zoning map, the procedures shall be as follows:

1. An amendment to the zoning ordinance text or zoning map may be initiated by adopted motion of town council, adopted motion of the planning commission, or the zoning administrator. An amendment to the zoning map for changing a zoning district designation of property may be initiated by the owner of the property affected or by an agent authorized by the owner in writing. A zoning amendment affecting the same parcel of property shall not be initiated more often than once every twelve (12) months.
2. Amendment ordinance shall be prepared in written form required by this code.
3. Proposed amendment shall be referred to planning commission for review and recommendation. The planning commission review shall include a determination of whether the proposed amendment is in conformity with the comprehensive plan. The planning

commission shall file with town council its report and recommendation on the proposed amendment within thirty (30) days after receipt of the proposed amendment.

4. Town council shall conduct a public hearing on the proposed amendment between first and second readings of the amendment.
5. Newspaper notice of the public hearing before council shall be published at least fifteen (15) days prior to the hearing. Notices of the public hearing shall be posted 15 days prior to the hearing on or adjacent to property to be rezoned, with one notice visible from each street bordering the property.
6. The planning commission recommendation shall be reviewed and considered, but it shall not be binding on town council. If the planning commission fails to make its report and recommendation within the prescribed time, the council may presume that the recommendation is for approval of the amendment and proceed to act on it.
7. Map amendments may be adopted or rejected for all or any portion of the property; however, a zoning district designation that was not included in the public notices shall not be adopted. An amendment may be withdrawn in writing by the initiator at any time prior to final action by town council. A withdrawn amendment is not subject to the twelve-month limitation in subsection 1 above.
8. Text amendments shall be codified in supplements to this code. Map amendments shall be reflected on the official zoning map maintained by the zoning administrator.

§ 5-238. Fees.

- a. The town council may establish by resolution a schedule of fees, charges and expenses and a collection procedure for zoning permits, certificates of zoning compliance, appeals, amendments and other matters pertaining to these regulations. This schedule of fees shall be posted in the office of the clerk-treasurer and may be altered or amended only by town council.
- b. No permit, certificate, special exception, or variance shall be issued or granted unless and until such costs, charges, fees, or expenses have been paid in full, nor shall any action be taken on proposed amendments or on proceedings before the board of zoning appeals unless and until applicable charges and fees have been paid in full.

The following signs and actions are prohibited:

1. No portion of any sign may be erected on or over public property, except a sign exempted by this article.
2. Such signs include all those that present illusion of movement in any manner that may confuse, distract or unduly defer attention.
3. This provision does not restrict the identification signing on vehicles used for delivery service, interstate commerce, or any bona fide transportation activity.
8. 10. No advertising signs shall be allowed in RS-1 and RS-2 zones.

§ 5-311. Nonconforming existing signs.

Any sign not in conformance with these regulations, and lawfully in existence on the date of passage of this section, may be repaired but not altered or moved unless it shall be made to conform with the provisions of this section. All signs in existence on the date of passage of this section shall be made to conform with these sign regulations within ten (10) years of the adoption of this ordinance by the Town of Arcadia Lakes, or when there is a change in ownership, alteration or relocation of a sign, whichever comes first.

§ 5-312. Construction standards.

a. All signs shall be constructed of metal or other noncombustible materials conforming to the standards of the latest International Building Code in effect at the time concerned, and shall be safely or securely supported, stayed, bolted or anchored to the ground or other solid, secure structure or building. Upon request by the building official, the applicant shall provide a design plan or specifications by a registered structural engineer attesting to the soundness and safety of the proposed sign and all related supports, stays, bolts, guides, anchors and other structure.

b. Any illumination or other electrical installations, materials, conduits and connections shall comply with and conform to the latest National Electrical Code, published by the National Fire Prevention Association, in effect at the time concerned.

§ 5-314. Inspection.

The building official or other designated town official shall inspect, when necessary, each sign regulated by this ordinance for the purposes of ascertaining whether the same is secure or insecure, whether it is in need of removal or repair.

§ 5-315. Removal of certain signs.

a. Any sign existing which no longer advertises a bonafide business conducted or products sold at its location, shall be removed by the owner, agent or person having the beneficial use of the building or structure. Such sign and supporting structure or structures shall be removed within sixty (60) days after it no longer advertises a bona fide business conducted or products sold at that location and any expense incident thereto shall be paid by the owner of the land or building or structure to which such sign is attached or upon which it is erected.

b. Whenever it shall appear that any sign has been erected, constructed or installed, or is being maintained in violation of the terms of this ordinance, or is unsafe or insecure, or is hazardous to pedestrians or vehicular traffic, or is otherwise detrimental to the welfare, safety and health of the public, such sign shall be made to conform in all respects to this ordinance within twenty-four (24) hours after written notification by registered mail or personal service by the building official zoning administrator. In the event said sign is not made to conform in all respects with the provisions of this ordinance, the permit for the sign, if one has been issued, shall be revoked by the building official or zoning administrator and the sign shall be removed within twelve (12) hours after written notice thereof, by the persons to whom said permit was granted or the owner or lessor of the property. The building official may remove the sign at the expense of the owner of the property upon which it is located. The building official may cause any sign that is an immediate peril to persons or property to be removed summarily and without notice. The twenty-four-hour notice to conform may be waived by the building official or zoning administrator when it shall appear that the purpose and intent of the sign is of a limited duration and that a twenty-four-hour notice would be unreasonable under the circumstances. In such situations, the building official or zoning administrator shall grant only a six-hour notice to conform; and if such is not removed or brought into conformity within two (2) hours thereafter, the building official or zoning administrator shall remove the sign at the owner's expense.

§ 5-316. Violations.

a. The owner or lessee of any sign erected, constructed, installed or maintained in violation of this ordinance, and any architect, builder, contractor or other person employed to assist in any such erection, construction, installation or maintenance in violation of this ordinance, and any person who violates or fails to comply with any requirements or provisions of this ordinance shall be guilty of a misdemeanor.

b. The owner or responsible person erecting a sign without a required permit shall pay a mandatory fee for said permit of three (3) times the normal fee for that category of sign as set out in §5-306, said fee being in addition to any penalty provided by law.
